## Placing a call using Iridium 9555 & Extreme handsets

Lu Parente - 2017-09-13 - in Iridium 9555

Follow the instructions below on how to place a call using the Iridium 9555 & Extreme handset.

### **Solution 1: Calling a North American number**

1. Take the phone outside to the most open area possible
2. Extend and rotate the antenna so it points to the sky when against your ear
3. Wait for the phone to register, "Registered" will appear on the display
4. Press and hold the 0 key until the + appears
5. Dial the country code, area code and phone number
  - Example: + (country code)(area code/city code)(phone number)
  - Example: + 1 206 329 1947

### Solution 2: Calling to another Iridium number

1. Take the phone outside to the most open area possible
2. Extend and rotate the antenna so it points to the sky when against your ear
3. Wait for the phone to register, "Registered" will appear on the display
4. Press and hold the 0 key until the + appears followed by the 8816 number
  - Example: + 8816 325 12345
